CREATE & CRAFT

BRANDING

I create and develop bespoke, engaging brand identities through the traditional methods using industry relevant research and the principles of design. I follow ethical processes that ensure authentic brand design. Canva is not in my vocabulary, crafting each brand I create from scratch.

Each brand I create is first crafted in black and white before applying colour palettes and time is taken selecting the best typefaces from my extensive font library.

LAYOUTS & GRIDS

CONTENT

I offer a full print design service, covering but not limited to.

- Corporate Profiles / Bio's
- Product & Service Brochures
- Leaflets, flyers, trifolds and posters.
- Corporate stationery which forms part of the brand offering
- Packaging design
- Corporate gifting
- Out of Home advertising (billboards & posters)

PIXELS & SQUARES

DIGITAL

My digital and web design offering includes:

- Social media post and campaign design.
- Social media template design that can be recreated in programs like Canva for clients with limited budgets.
- Website design & development (excluding any backend coding which I outsource to my preferred developer that I work with.)
- Simple animation for social media posts.

STYLE & SHOOT

PHOTOGRAPHY

The recent addition of professional lighting and backdrops has provided an opportunity to add Product Photography to my offering for my clients within the retail sector to have access to an affordable alternative for their product photography needs. This will allow them to showcase their products in the best light and leverage off of this service, leading to increased promotional value in campaigns.
